

# Download 2 Year Math Notes

Welcome to my math notes site. Contained in this site are the notes (free and downloadable) that I use to teach Algebra, Calculus (I, II and III) as well as Differential Equations at Lamar University. The notes contain the usual topics that are taught in those courses as well as a few extra topics that I decided to include just because I wanted to. Differential Equations Here are my notes for my differential equations course that I teach here at Lamar University. Despite the fact that these are my “class notes”, they should be accessible to anyone wanting to learn how to solve differential equations or needing a refresher on differential equations. Take note: Your child's math skills are sure to improve as she practices problems like the ones on these sticky notes. For this worksheet, kids solve addition problems with three-digit addends. Purplemath. Need help with math? Start browsing Purplemath's free resources below! Practical Algebra Lessons: Purplemath's algebra lessons are informal in their tone, and are written with the struggling student in mind.
