

Download 4 Ethyl 2 2 Dimethylhexane

Which of the following molecules has the highest boiling point? [dfmc-20] ? ? ? ?Physikalische Eigenschaften. Bis auf das 2,2,3,3-Tetramethylbutan sind die Octanisomere bei Raumtemperatur flüssig. Physical properties of many pure fluids. Provides molecular weight, freezing and boiling point, vapor pressure curve, liquid viscosity curve, heat capacity curve, ...????????????6????????????????????????????????????24???????
