Foundations of Orientation and Mobility Third Edition Volume I History and Theory William R. Wiener, Richard L. Welsh, and Bruce B. Blasch, Editors Today, psychology is defined as "the scientific study of behavior and mental processes." Philosophical interest in the human mind and behavior dates back to the ancient civilizations of Egypt, Persia, Greece, China, and India. The objective of this paper is to discuss proximal process as a key concept for the understanding of the bioecological paradigm, as well as to answer the comments regarding the use of the Bioecological Theory of Human Development as a theoretical
