

Download Metamorphosis Text

Metamorphosis is a biological process by which an animal physically develops after birth or hatching, involving a conspicuous and relatively abrupt change in the animal's body structure through cell growth and differentiation. This disambiguation page lists articles associated with the title Metamorphosis. If an internal link led you here, you may wish to change the link to point directly to the intended article. The Metamorphosis (in German, *Die Verwandlung*, "The Transformation") is a novella by Franz Kafka, first published in 1915, and arguably the most famous of his works along with the longer works *The Trial* and *The Castle*.
