

Download Prime And Prejudice

This production of *Pride and Prejudice* is simply brilliant. The scenery, costumes, musical score, camerawork, casting – the actors live their parts and I am now spoiled because I cannot imagine the characters being played by any others. In one scene, immigration officers round up a Thai woman who works at a pub as a narrator says, with no evidence, that her shared apartment is a “den” of illegal workers. While the arrival of wealthy gentlemen sends her marriage-minded mother into a frenzy, willful and opinionated Elizabeth Bennet matches wits with haughty Mr. Darcy. *Without Prejudice?* is a game show created and produced by 12 Yard that aired in the UK on Channel 4 from 4 January 2003 to 16 April 2004 and ran for 2 series.
